Education

Master of Software Engineering, *University of Amsterdam*   04/2016 – 05/2020
During studying in the university, I have learned mainly about Web Development.   Amsterdam,
I am not only studying but at the same time, I have developed some web apps for   Netherlands
small shops and companies.
Many of my skills were ready when I was at university.
I have learned Modern Web Development Techniques and Blockchain technologies.

Profile

I am a WEB Developer.
I have developed for 6 years for web, especially have 3 years experience of React.js development.
Firstly I developed some HTML templates and HTML5 pulgins and contents.
Then I have studied at PHP and Frameworks such as Laravel and CMS like Drupal and Wordpress.
I can also develop Node.js programs.
I am skilled for developing MERN Stack Sites, DApps, React-Native Mobile Apps.
React.js is my powerful skill and I have ever lectured for junior developers about React.js ecosystem.
